## HELLO FROM COLOSSAL FOSSILS!

It has been an interesting year for us, as I know it has been for you.

What was once supposed to be a stellar twelve months for our non-profit turned into some of the most challenging.

However, we will survive. Unlike the dinosaurs, we have no intentions of going extinct because we know how many kids love our programs. We are cautiously optimistic this year and will be scheduling in-person programs or online for those of you who still need that service.

The most exciting news has to do with our program, "A Whale of a Tale," which we have designed exclusively for the 2021 Wisconsin Library Summer Reading Program. This will showcase a collection of ancient and modern whales, highlighting the amazing evolution of these enormous aquatic mammals.

We can't wait to (hopefully!) see you next summer,  
David J. Daniels - Executive Director, Colossal Fossils Inc.

## A WHALE OF A TALE

Most Wisconsin kids will never know how big a whale truly is.

### Let's change that.

This program was designed for the sole purpose of showing kids some extremely gargantuan bones from the largest animals that ever lived:

### **Whales.**

Kids will meet modern animals like the humpback whale (above), their dolphin cousins, the orcas (below), and their ancient ancestors, Basilosaurus and Zygorhiza (right.)

Most of these bones are massive and we know they will create many "Oooh" and "Ahh" moments for the kids.

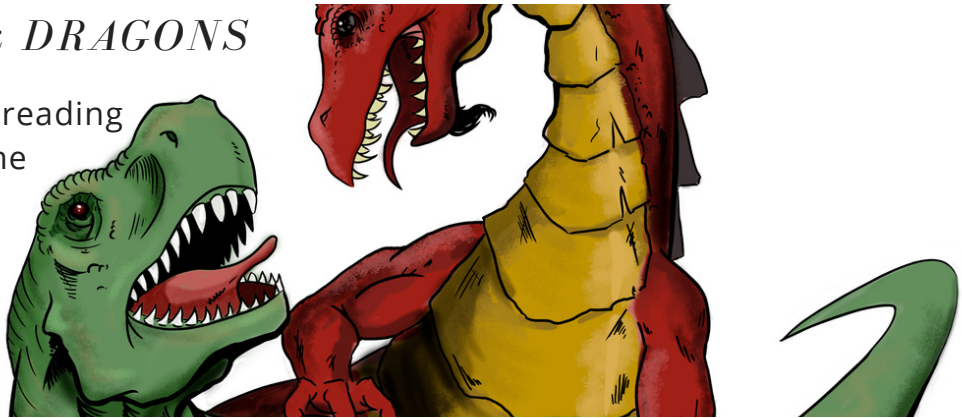

# OTHER PROGRAMS

IF WHALES AREN'T YOUR THING, CONSIDER THESE OPTIONS!

## *DINOSAURS & DRAGONS*

Last year's summer reading program featured the fossils that inspired mythological creatures. It was such a hit, we are offering it again.

**THE MAMMOTH HUNTER**  
PRE-HISTORY COMES ALIVE WITH  
ICE AGE PRESENTATIONS

**ICE AGE GIANTS**  
Bears, mammoths and a TON of  
Wisconsin history!

## **DINOSAURS**

A fun collection full of  
the world's most  
famous dinosaurs!

# PRICING
